COMMERCIAL INTELLIGENCE

SATURDAY EVENING, DEC. 11, 1880.

CONSOLS in London yesterday were quoted ¼ higher at 99, French Rentes ¼ higher at 119½; but in Enfaced Rupee Paper fours were unchanged at 82, while Fours-and-a-half were ¾ lower at 89⅜.

In the General Produce markets Coffee is again quoted 2s. per cwt lower. Ceylon Cocoanut-oil 5s. and Cochin 10s. per ton lower. Seeds are unchanged, but wheat is again easier.

The Manchester Piecegoods market closed quiet but steady at previous rates, while Cotton in Liverpool, Reuter says, closed firm—sales 10,000 bales, of which 700 were Surats. Spot prices were all unchanged, but futures were 1-32d. higher. This, however, is more than negatived by the New York advices. Ready Mid.-Uplands there were still quoted at 11⅛ cents, but March shipment had receded from 12·26 to 12·15 cents per lb.

We subjoin our usual weekly comparison of the statistical position. During the week the stock in Liverpool has increased by 12,000, and the visible supply by 10,000 bales. The latter now stands 337,000 bales ahead of the corresponding date last year, but this is lost eight of at the moment in the interest attaching to the American figures. For this week the receipts at the ports are undoubtedly heavy, being 4,000 bales in excess of a comparatively heavy week last year; and with a continuance of anything like a corresponding scale of figures a short time longer, we can scarcely fail to see lower prices. The reports of an unfavourable picking season are all very well in their way, and no doubt a certain amount of importance must be attached to them; at the same time, it must not be forgotten that the acreage planted and the very propitious weather in the early part of the season allow considerable margin for after-depreciation. In the interest at present attached to the American reports, too, there is, perhaps, a tendency to overlook other points which must eventually tell on the market: not the least amongst these is the existing state of the Eastern markets for Piecegoods. There can be no doubt that these are at present overloaded with supplies, and although producers at home do not feel it as yet, it must eventually come home to them in the shape of a diminished demand. It may be that we have no great fall in prices before us—perhaps none at all, if the reports of damage to the American crop prove well founded—but there is certainly enough on the surface of things just now to show that current prices in Bombay, showing as they do a loss of something like ¼d. per lb. on home currencies, are not justified.

The American Crop figures to date give the following comparisons:—

	1880.	1879.	1878.
Week's Receipts	241,000	237,000	219,000
,, Exports to U. K.	30,000	33,000	37,000

,, ,, to Continent ,, ..	555,000	463,600	466,000
,, Stock in the Ports	906,000	753,000	703,000

The visible supply of Cotton for all Europe as compared with the corresponding date of the two previous years is as follows:—

	1880.	1879.	1878.
Total Supply of all kinds.....	2,460,000	2,023,800	1,935,450

For the U. K. only the figures are:—

EXCHANGE.—Owing to an advance of 1-16d. advised in the price of Bar Silver at home, there has been a slightly firmer feeling apparent, and both for ready and forward delivery rates may be quoted 1-32d. higher. A fair business has been done, and some anxiety shown to place private paper forward, but it is difficult to assign any special reason for it, beyond the movement in Silver already mentioned. There is certainly nothing more doing in exports, and in all probability the real source of such strength as there is is the anxiety felt by sellers the moment any additional firmness is at all apparent. We quote to-day:—

Bank Bills on demand	1s. 7 3/16.	per rupee.
Do. telegraphic	1s. 7 23-32d.	,,
Do. 3 months' sight..	1s. 7 27-32d.	,,
Credits, 3 ,, ,, ..	1s. 8d.	,,
Documents, 3 ,, ,, ..	1s. 8 to 1-32d.	,,

On Calcutta rates are without change.

GOVERNMENT PAPER to-day, although steady, has been very quiet. We have not heard of any large amounts having changed hands, and at the moment there is a good deal of what might be termed a waiting position apparent. We quote Fours, Rs. 100½; Fours-and-a-half, Rs. 109.

SHARES have not been active, but values are firm, and any changes reported have been in sellers' favour. Bank of Bombays are 1 per cent. higher at Rs. 730, Nationals again Re. 1 higher at Rs. 108. In Land Companies there is no change, and the only quotable alteration in press shares is a rise of Rs. 5 in Mofussils. For Spinning and Weaving Mill shares there is some enquiry, and we quote an advance of Rs. 2½ in Bazagon, Rs. 5 in New Great Eastern, Oriental, and Prince of Wales, and Rs. 45 in Dhurramsey. The movement in the latter, however, is, as is well known, mainly due to speculative operations of a speculative character.

COTTON to-day has been quiet in the extreme, with very little doing. The pressure to sell has not, perhaps, been very great, but buyers have evinced little disposition to operate, and the market is in reality weaker than the mere quotations indicate. As a matter of fact, there are very few purchases at all being made for export at present, and rates are guided mainly by the operations of speculators working on the movements from day to day. This, no doubt, will continue to be the case for some little time, but before long arrivals will assume larger proportions, and home prices have more to say to the level of currencies than at present. We quote:—

Good Hingunghaut, Jany. ..	Rs. 240	per candy.
,, Omra ,, ..	,, 222	,,
,, Broach, March ..	,, 239	,,
F. G. F. Dhollera, April ..	,, 210	,,

SEEDS and Wheat are unaltered in every respect. FREIGHTS to-day have been quiet, with no great extent of business doing. For Liverpool 37s. 6d. has been paid for measurement by a ready steamer, but the S. S. Strathleven is said to have been fixed at 35s.; and for Marseilles the Jenny Oda has been fixed at 42s. 6d. per ton, payable here.

PIECEGOODS are quiet, and it is impossible to quote any change in prices. The off-take from the bazaar is put at about 400 packages a day, but there can be no doubt that the whole trade is in a state of depression owing to the large supplies available.

COALS are firm at previous prices.

TELEGRAMS.

THE ILLNESS OF THE VICEROY.

(FROM OUR OWN CORRESPONDENT.)

ALLAHABAD, DEC. 11.

An improvement in the Viceroy's condition was apparent yesterday afternoon. This morning it was ascertained that this has been maintained. The official bulletin says the Viceroy has passed a good night. His debility is still great, but all other symptoms are yielding most satisfactorily to the treatment of his medical attendants.

ALLAHABAD, DEC. 12.

The Viceroy's illness continues. On Friday afternoon a distinct change for the better was observed, and this improvement was maintained on Saturday till evening, when there occurred what is technically called an exacerbation of the fever. This morning His Excellency was somewhat better again, although still not so well as he was on the previous morning. On the whole, considering the increase of fever in the course of Saturday, his condition is considered by his doctor to be unsatisfactory.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, DEC. 12.

The Lieutenant-Governor received a telegram from Allahabad this morning, asking for the best medical advice for the Viceroy. In consequence, Doctor Payne, Surgeon General, Bengal, has been ordered to proceed at once to Allahabad.

(FROM THE PRESS COMMISSIONER.)

CALCUTTA, DEC. 11., 12-50 P. M.

The following telegram from Allahabad was received in Calcutta on Friday night. The Viceroy is decidedly better this afternoon; the fever is abating and general symptoms are improved.

CALCUTTA, DEC. 11, 4-42 P.M.

His Excellency the Viceroy has passed a fairly good night. His debility is still great, but all other symptoms are yielding most satisfactorily to treatment.

CALCUTTA. DEC. 12.

The following telegram was received from Allahabad in Calcutta to-day at 3 p.m.:—Yesterday afternoon there was an exacerbation of fever, and the Viceroy passed a restless night. This morning His Excellency, though not as well as yesterday morning, is in as favourable a condition as could be expected under the circumstances.

A TIGER IN THE STREETS OF RANGOON.

(FROM OUR OWN CORRESPONDENT.)

RANGOON, DEC. 11.

A curious circumstance occurred here at four o'clock this morning. A tiger from the jungles, supposed to have swam the river, was found on the Strand Road. He was surrounded by crowds of Burmans, and the policemen, firing ten shots, despatched him without accident.

RANGOON, DEC. 12.

The *Rangoon Times* says that a Burman was killed by an accidental discharge of the police rifles at the shooting of the tiger yesterday.

The tiger measured eight feet ten inches from nose to tail. The superstitious Burmese say that tigers were last shot in the town immediately previous to the last two Burmese wars, and that the killing of this one forebodes war, sickness, or famine.

Fever is very prevalent here just now, and there has been some cholera.

At yesterday's sitting of the Chambers the President of the Ministry made a statement, in which he denied the existence of any direct negotiations with Turkey.

Departures:—Beaconsfield and Clan Lamont.

LADY FERGUSSON'S At Home, which was to have been given to-morrow, Tuesday, evening will be given this evening, so as not to interfere with the prospects of the concert fixed for to-morrow night.

WE observe that Lieutenant Dean Pitt, R. H. A., who who for so long a period acted as Aide-de-Camp to Sir Richard Temple, arrived in Bombay on Saturday from Kurrachee with the E. B. Battery R. A., which did such good service at Maiwand.

THE *Bombay Review* is glad to see that one of the slanderers of the Bombay Army is to be proceeded against according to the "It is hoped that this richly-merited prosecution, in which the *Pioneer* must be joined as second defendant, will meet with hearty and general support in all Western and Southern India. We feel sure that ample funds will be forthcoming for the purpose; but a treasurer and honorary secretary should be appointed at once. Let the ignorant and cowardly libellers put in pleas of justification if they dare, and then the facts will come out."

THE HON. MR. GIBBS, it is stated, will represent the Viceroy at the opening of the Ajmere-Palanpur section of the Rajputana State Railway.

THE following paragraph, which appears in the *Musical Times* for November, will doubtless be of interest to the friends of the Rev. Dr. Maule, for some time Chaplain of St. John's, Colaba, and Senior presidency Chaplain at St. Thomas' Cathedral at Bombay:—"The Harvest Thanksgiving was held in the Church of the Ascension, Balham Hill, on Michaelmas Day. There was a full choral service, and considering that the church has only been open since May last, great praise is due to the incumbent (Dr. Maule) and his organist (Mr. Bowley) for bringing the choir to such a state of efficiency in so short a time. The offertory was for the choir fund."

ON the authority of the agent of one of the companies concerned we stated the other day that an amalgamation had been effected between the Bell-Edison and the Anglo-Indian Telephone companies, and that they would work together in future instead of in opposition to each other. The agent of the other company telegraphs us from Calcutta that no amalgamation, such as we were informed of, has taken place.

THE *Asian* hears from Hyderabad that there is a talk that next year a "gold cup," value Rs. 3,000, with Rs. 2,000 from the fund, will be given for all Arabs. 2 miles. Another cup, value Rs. 1,500, with Rs. 1,000 added from the fund. For all horses. 2 miles. Also handicap for all horses, with Rs. 1,500 added. 1½ mile. It is said that handing allowances will also be given to English and Australians for the weight for age races.

A VOLUNTEER writes to the *Asian* on the subject of rifle-shooting, to "propose a monthly rifle match open to volunteers and Martini-Henry rifles, Government pattern, throughout India, the usual precautions to be taken to insure fairness, and the entries to be limited to one rupee per entrance. The amount of entrance-money to be divided into three prizes to start with, and more if the amount justifies. I would also propose that the scores be sent to you with the amount of entrance in post office orders. This to be subject to a deduction of Rs. 5 per cent. to remunerate an employé of yours for the labour in making out scores, &c.; and if, at the end of 1881, you find the interests of the paper promoted to an extent that you think will justify the expenditure, that you should give a cup, to go to the highest aggregate score for the past twelve months. The rules I propose shall be the N.I.R.A., as they follow the Wimbledon and the bye-laws snit India." Some such monthly competition for all India might easily be arranged, and would, no doubt, be a good thing for the encouragement of rifle-practise in the various volunteer corps.

LIEUTENANT ADAM SMITH, of the Bombay Volunteers, who has done so much for the promotion of rifle shooting in Western India, and who mainly was the cause of the resuscitation of the Western India Rifle Association in 1871, has resigned the position of honorary secretary. Captain F. F. Burgess, Bengal Staff Corps, the *Asian* hears, is likely to be the new honorary secretary.

Native Opinion speaks of the recent financial exploit of the Bombay Government:—The question of deducting Rs. 15,000 from a particular grant is not the real matter at issue. Government has to pay a number of other items to the Municipality, and if Rs. 15,000 can be deducted from one item, Rs. 15,000 can be taken from another, and one gone from third. It seems to us that municipal government in Bombay is over if the municipal budget is to be thus manipulated in the General Department of the Secretariat.

THE *Bombay Chronicle* says of the recent elections:—"We congratulate the justices on the happy choice which they have made as a whole; and we feel sure that most of the gentlemen returned by them will be very valuable compeers of such of the really eligible members as the new Corporation is fortunate enough to have secured through the rate-paying electors." But the *Bombay Review*, which is among the "outs," does not take so cheery a view of things:—The "electoral college" of the justices cannot be altogether congratulated on the outcome of their voting last Monday. Apart from about half-a-dozen who should and would have been elected under any circumstances, the sixteen include six officials who might or would have been included by Government in its own nominations; while, looking at the list from the ratepayer's point of view, there are at least three or four who have displayed no aptitude for, or interest in civic business, and who—taking only the first four under the line—displace as many who have been useful members of former Corporations.

WE see by the Commander-in-Chief's General Orders that the promotions in the 3rd Native Infantry, in the room of Colonel Blair, appointed to the Brigade Staff, have gone in the regiment, Lieutenant-Colonel Garden becoming commandant, and Major Skinner 2nd in command.

THE *Pioneer* understands that "the Horse Guards have now in their hands all papers relating to Maiwand and the after events at Kandahar, and that, not improbably, action will speedily be taken upon them. While shrinking from any inquiry into the wide subject of the military administration of Southern Afghanistan after Sir Donald Stewart's departure for Kabul, the authorities are resolved to press to the full an investigation into the charges brought against individuals and regiments."

WHEN the Rajputana State Railway is opened to Ajmere the *Englishman* fancies that the whole of the traffic from that part of the country to Bombay will go by the new line, for the saving, as compared with the present route, will be something considerable. As an example we may mention that the first class fare from Ajmere to Bombay will be about Rs. 42, whereas by the present route *vid* Delhi, and the East Indian and Great Indian Peninsula Railways, the cost is nearly Rs. 116.

IN Madras they have a juster way of looking at matters affecting other presidencies than distinguishes Allahabad. The *Madras Times* writes in a recent issue:—The fêteing of the Bombay Grenadiers recalls the battle of Maiwand, and recalls also the early reports of the behaviour of these very troops in that battle. We do not swerve from the position we then took up, that the organisation of the Bombay native army is very faulty and liable to lead to unpleasant results in a hard-fought battle. But we gladly recognise the fact, which has since that battle been indubitably proved, that the Bombay Grenadiers fought nobly and deserved the success they failed to win. General Daubeny's expedition to the scene of the battle showed unmistakably that while the fight raged very little cowardice was shown. For hours the men of all nationalities bore the brunt of an overwhelming attack, and gave way only when hunger, thirst, weariness, and superior numbers bore them down. True, even then some elected to die on the field, while others sought escape that they might fight another day; but it is manifest beyond contradiction that the stampede, or whatever we may call it, occurred only after long weary hours of unparalelled fighting against overpowering numbers. The inspection under General Daubeny showed that among those who maintained the unequal conflict to the death were the Bombay Grenadiers, who left more than half their numbers on that bloody field. It is bare justice, therefore, to the survivors of that regiment that Bombay should tell them, in the words of Sir James Fergusson, that "we know you bore yourselves on that occasion like the successors of those who long composed the Bombay army. In those trying hours you stood side by side with British soldiers and sustained the honour of the army with no less constancy (than the British soldiers)." The faults of the army organisation must not be charged on the men, who, it is certain, were even better than the system under which they fought. Defective as the system is, the men did good service at Maiwand in spite of it.

THE *Englishman* considers "the people of Bombay have done honour to themselves in doing honour to the 1st Grenadiers on their return from Kandahar. Whatever detractors may say about the conduct of some of the Bombay troops at Maiwand, no fault can be found with a regiment which on that unfortunate day went into action with 7 European officers, 15 native officers, and 626 men, and lost out of that number two European officers killed and two wounded, eight native officers killed and four wounded, and 356 non-commissioned officers and men killed and 55 wounded. Such figures at once show how well the regiment did its duty."

CAPTAIN BARRINGTON FOOTE, Aide-de-Camp to the Viceroy, has been appointed Aide-de-Camp to General Radcliffe, the Inspector-General of Fortifications at Home, and will leave India about two months hence to the great regret, no doubt, observes the *Pioneer*, of the Viceroy's household and of all who have made his acquaintance this year at Simla. His new appointment, however, is too good a one for a young artillery officer interested as Captain Foote is in his profession to refuse, as he will have to accompany the Inspector-General on his tours, in the course of which he will visit, once a year, every station in the United Kingdom where artillery is quartered.

FROM its own correspondent the *Civil and Military Gazette* learns that the Amir Abdul Rahman is not yet dead, but was married "some more," on the 22nd November last, to a daughter of Meer Atikullah Khan. Kabul was illuminated for three nights. Fireworks amused the populace, while the principal Sirdars were entertained at a feast, at which they dutifully presented their *nazurs* to the Amir. General Mahomed Jan is living in the city, and has a force of about 2,500 men under his orders. He is not appointed to any public office, but attends the durbar of the Amir daily. Abdul Rahman's favourite councillor at present is Asmutoola Khan, Lugmani. The road to Kabul is said to be safe, except between Jellabad and Lundi Khana, where it is disturbed by the Shinwaris. The jirgah of the Khyber Afridis has been in attendance at the court of the Deputy Commissioner, Peshawur, for the last two or three days, negotiating the conditions on which, after the contemplated retirement of the British troops from Lundi Kotal and the Khyber, the tribes will undertake to keep the pass open and safe for traffic. Hostages are reported to have been demanded from them as a guarantee of good faith, and as yet nothing has been concluded.

THE *Indian Daily News* believes the Government of India have urged on the Madras Government the advisability, on financial grounds, of abolishing the local Gunpowder Factory, suggesting that the supplies for Madras should be drawn either from Calcutta or Bombay. Colonel Childers, the Superintendent of the Madras Factory, is now in Calcutta in connection with this scheme. But we cannot conceive upon what possible ground a mere question of money can be made to over-ride the simplest rules of military prudence. Powder ought to be manufactured and stored as near as possible to the troops by whom it may be used, and a concentration in a country like India of powder manufactories, in the face of the lesson that a power like Russia has found it necessary to distribute its powder factories, seems to us one of those mistakes of economy of which we have lately had too many.

SOME official correspondence is published in the *Gazette* of the Bengal Government "regarding an insect that has lately been injuring the rice-crop in the Kurruckpore thana of the district of Monghyr." The insect alluded to—writes Mr. D'Oyly, the Magistrate of Monghyr, on the 23rd October—"has been sent this day back to Calcutta." At Calcutta it was referred to Mr. Wood-Mason, Deputy Superintendent of the Indian Museum, who was asked to favour the Lieutenant-Governor with an opinion on it. Mr. Wood-Mason seems to have been rather displeased at the way the insect had been treated; he speaks of what was sent him to examine as "dried, shrivelled, and mutilated remains," and elsewhere as "the exceedingly meagre and ill-preserved material that has been placed at my disposal." However, he addressed himself to the task of finding out what kind of creature the insect was; and came to the conclusion that it belonged to the genus Cecidomyia, and was a relation of the Hessian fly, "Cecidomyia destructor," which had ravaged the wheat in the United States, and of the wheat-flies—"Cecidomyia tritici et aurantiaca," —whose depredations are well known both in America and in Europe. Never before has a pest of this genus been found in India, so far, at least, as Mr. Wood-Mason has ever heard. This particular species he proposes to call "Cecidomyia Oryzae," or rice-fly; it differs from all the other kinds that are known in being viviparous instead of oviparous. "Cecidomyia Oryzae" is likely to prove a most formidable pest; and Mr. Wood-Mason suggests that district officers should be told to make further inquiries, with a view to finding out if it has visited any other parts of Bengal.

BY the notification of March, 1879, grey cotton goods made of 30's yarns and under were exempted from import duty. The results, so far as Bengal is concerned, are thus stated by the Lieutenant-Governor:—"The Government lost in Bengal 13½ lakhs of revenue last year, and will lose more in future years. The loss throughout India last year was over 21 lakhs. Importers and manufacturers have undergone much inconvenience and some loss in their efforts to meet the altered requirements of the markets. It does not appear that the sacrifices made by the Government of India in surrendering the duties on certain classes of piecegoods have been attended by any corresponding advantages, while, on the other hand, they have had in many ways a distinctly mischievous effect upon trade, and have caused precisely the confusion which was anticipated and foretold by many who were opposed to the surrender of this valuable source of revenue." And His Honour goes on to assert that the present system cannot be worked with fairness, and he thinks that the only satisfactory solution of the difficulty is "to bring all classes of cotton goods on to the customs tariff again at an equal but reduced scale of duty."

SAYS the writer of "Other People's Money," in *Vanity Fair*:—"Above all have nothing to do with retired Indian military officers as directors; however estimable they may be as members of society, experience has shown that as directors of English limited companies they are inefficient, unbusiness-like, and *fatal*." The above appears at the very head of a set of rules to be observed by intending subscribers to limited companies.

THE BOMBAY HUNT.

(FROM OUR HUNTING CORRESPONDENT.)

THE last meet took place at the village of Karr, some three miles beyond Bandora. There was a very fair attendance. Shortly after 6 o'clock the hounds were led to a covert on the east side of the road, and in a few minutes a jackal broke away, and was followed at a very fast pace by hounds and huntsmen. After a short run of a couple of miles the jackal was overhauled and eaten up. Then the hounds were led to other coverts, and in twenty minutes started two, if not three, jackals. The pack divided and for a time hunted two jackals; one hound hunted a supernumerary jackal all by himself for a mile or two. Eventually one of the jackals had the honour of leading the whole pack right away across country towards Vehar—a glorious run across a diversified country. Two or three falls did not in the least mar the enjoyment of the hunt. When in the woods near Vehar the jackal contrived to give the hounds the slip, and in their search for him they came upon a sambhur doe, which rushed away eastward, closely followed—for a time—by the pack. But the dogs having already travelled over six or eight miles of rough country, could not be expected to overhaul a sambhur which was presumably fresh and in good condition; so there was no second kill. But the morning's sport was not the less satisfactory on that account.

THE GAIETY THEATRE.

THERE was a big house at the Gaiety on Saturday night, and the audience included His Excellency the Governor. The piece produced, "Round the Clock," is described in the programme as a farcical absurdity, and it is absurd enough in all conscience, degenerating in places into positive silliness. There are some amusing situations, as for instance, where a lady enters a cigar-shop to buy a tobacco-pouch for her husband, said husband being in the shop making love to the young lady behind the counter, and only just having time, after seeing his better-half pass the window, to seek a hidingplace beneath the counter before she makes her appearance. The lady wishing to have her husband's initials stamped on the tobacco-pouch she intends to present him with, mentions his name, and the faithless one having, strangely enough, given his real name, though wrongly describing his business and means, to the fair maid of the shop, the situation becomes interesting. Miss Wilson's acting in this scene (as Salprunelle, the fast young lady of the cigar-divan) was very lively and amusing, and Mrs. Norville and Mr. Stuart also played with much spirit the respective rôles of the happily unconscious Mrs., and the only too conscious Mr., Gadforth. But the best acted part in the piece was that of Mr. Bartholomew Burke, an Irish auctioneer, by Mr. John Turner. Miss Emily Blaine was good as Master Bertie Kelvin, but lost much by the transformation from a female to a male character. She makes a charming young lady, but by no means a fine specimen of the genus boy. Mr. Crofton, as a policeman, illustrated some of the peculiarities popularly ascribed to members of "the force" in an amusing manner. Mr. Burton, as Mr. Denby, and Mr. Cowell, as Mr. Gewgaw, were good also, and would both have appeared better if we had seen them in this play for the first time. Both these gentlemen seem quite unable to get rid of a stereotyped mannerism. The peculiarity is most marked in Mr. Cowell. In Mr. Burton, it is more a sameness of voice and style of speaking; but in Mr. Cowell, both tone and gait and gestures, are always the same. In whatever part he appears he reminds us of the old gardener in "Married in Haste." Miss Nordt and Miss Vivian would have done better, could they have managed to speak a little less as if they had marbles in their mouths.

"Round the Clock" tells an absurd story of an absurd bequest. The will of a Mr. Frousey bequeaths a large property to his nearest of kin who shall be proved never to have experienced the weakness of falling in love with—who shall never willingly have kissed—one of the opposite sex. The chief characters are all, with the exception of Mr. Denby, the family solicitor, relatives of the deceased gentleman, and all of them lay claim to the property. But the only near relative who fulfils the conditions is Master Bertie Kelvin, a nephew of Mr. Frousey, who has been in charge of an aunt in the country, by whom he has been taught to fight shy of other members of her sex. Twelve hours, or once "round the clock," from the reading of the will, are allowed for the claimants to prove their own or to disprove each other's title; and the incidents of the play consist of a number of most ridiculous attempts on the part of some of the relatives to throw temptation in the way of Master Bertie, and induce him to break through the conditions before that time has elapsed. Mr. Gewgaw is the most indefatigable in his efforts to obtain the estate for his daughter, who would be next of kin were the nephew's claim disallowed. Amongst other temptations, the boy is taken to Cremorne Gardens, but the chief desire excited in him by the visit is to get out of the place and go home. He gets through the twelve hours, without falling in love with or willingly kissing anyone, though he has one or two narrow escapes; and is declared the rightful heir to Mr. Frousey's property.

RETURN OF THE E-B R. H. A.

THIS battery, which played such an important part in the battle of Maiwand, arrived in Bombay on Saturday from Kurrachee in the Government steamer Scindia. It will be remembered that the officers and men served their guns in splendid style during the action, and that they rendered invaluable service in checking the retreat. They lost heavily in the fight, among the killed being the gallant Major Blackwood, and poor Hector Maclaine, the latter of whom, it will be remembered, was taken prisoner, and afterwards cruelly murdered. The Scindia left Kurrachee on the 8th instant, having on board 5 officers, 1 warrant officer, 1 hospital assistant, 168 Europeans, 12 natives, 204 followers, 155 horses, 17 bullocks, and 6 guns of the E-B R. H. A.; and 5 officers, 1 lady, and 2 children of British regiments. The battery disembarked at the Prince's Dock, and encamped on the Esplanade. They will march to Kirkee early on the morning of the 15th instant *viâ* Tanna and Khandalla. The following are the officers' names:—Major Tillard, Captain Slade, Lieut. Dean-Pitt, Surg. Major Harvey, and Vety. Surg. Oliver, of E-B. R. H. A. Major Mander, Transport Department, Lieut. Pirie, 2-11th Regt., Lieut. Steele, 2-15th Regt., Surg. Wellings, M. D., Rev. Janney, Mrs. Dundas, and two children also arrived by the Scindia.

"I compliment you for your *Syrup of Hypophosphite of Lime*. I employ it daily amongst adults or children who are attacked *with diseases of the lungs and liver*. It outvies every other preparation of the day.

THE BOMBAY ARMY.

V.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—When, in an idle hour, I first commenced writing about the Bombay Army I had no intention whatever of sending you a series of letters on the subject; but the more I wrote the more I felt inclined to write,

As if increase of appetite
Had grown by what it fed on.

The truth is, that when there is much that is pernicious and foolish occurring before our eyes the difficulty is not to write or to speak, but to remain silent. It has been said that an angry man who suppresses his passion thinks worse than he speaks, and an angry man who will chide speaks worse than he thinks. If this be true, perhaps it would be better for the service if some of us spoke or wrote more about our grievances than we do, instead of allowing them to rankle silently in our hearts.

I need say no more about our present regimental system as at present carried out, for it is doomed. For years past I have seen the certain symptoms of decay becoming more and more clearly developed. Those who admire it—if such there still be—will ere long have to mourn its loss; but those who agree with me in considering it a hybrid abomination and an expensive sham may then say

Wrong not the dead with tears;
A glorious bright to-morrow
Endeth a weary life of pain and sorrow.

But it is not the regimental system of the Native Army which alone is faulty. I have no hesitation in saying the present system of appointments to the general staff is thoroughly bad. It is quite as unnecessary to point out how these appointments are now bestowed as it would be to write an essay on the subject of how kissing goes, because both are proverbial. Every officer who joins the Staff Corps is obliged to pass an examination qualifying for staff employ. Why, then, should not each and every one, as far as possible, have a turn of duty on the general staff? No officer should be permitted to remain on continuous staff employ above a fixed period—say three years—after which at least one year's regimental duty should be compulsory. My space is far too limited for enabling me to enter into a minute analysis of the advantages of the system I suggest, but I think, of those who give it thoughtful consideration, many unprejudiced persons will see the advantages. At present the "Dowb" system continues to flourish throughout every department of the public service; and here in India any boy whose father or mother is the third cousin of a Governor, a Commander-in-Chief, or a Member of Council knows that he has a far better prospect of attaining the loaves and fishes of the service in consequence of such connection than by any amount of ability or zeal which he might display in his profession. The civil, political, and police departments should be entirely separated from the military and regimental. Those who accept appointments in the former should do so with the full knowledge that the remainder of their career is to be spent therein. Let those leaving the military for the civil line have one step of military rank given them, after which let their military promotion cease, as on retirement from the army. The present arrangement with regard to those officers is worse than ridiculous. But I have said enough, perhaps more than enough, for all the good that is likely to result from it. I could write pages upon pages yet, but be not alarmed. I have not the slightest intention of troubling you with another letter. This is positively the last, and I daresay you will be glad to hear it. Another year is rapidly drawing to a close, and every officer of the Indian Army is anxiously enquiring whether or not the long-looked-for and much-needed reforms—the chief of which are the promised new pension rules—are to be carried out. Who can tell? None of us know what the future may have in store for us, but we all know how bitter the taste that Dead Sea apple, the Staff Corps, has left in our mouths.

The moving finger writes, and having writ,
Moves on; nor all your piety nor wit
Shall move it back to cancel half a line,
Nor all your tears wash out a word of it.

THE MALABAR HILL CHURCH DISCUSSION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—For a full-blown specimen of the Pharisee commend me to the letter of "A Christian," which adorns your columns to-day. "The upper classes," who occupy Malabar Hill, says this righteous man, stand in need of a "missionary church," and therefore Government have done well to come to their aid to provide them with one. But does he *say* this? No, he craftily insinuates it, and much more. The "upper classes," in their elevated retreat, are as the heathen in the plain, requiring missionary agency to reclaim them. Government money, too, says this wisely-good man, is wisely granted for their spiritual treatment. He thinks they are going "the primrose way to the everlasting bonfire," and so "robbery for sacrifice" may be winked at to save the "upper classes!" Go to, go to; learn better manners and some charity.

THE *PIONEER* AND THE BOMBAY ARMY.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—While admiring the articles and letters which have appeared lately in your paper, completely removing the bad impression which the *Pioneer* has endeavoured to establish against the behaviour of the Bombay Army at the front, I cannot understand why the leading papers of India should take such notice of a paper whose opinions and statements are well known to have such little influence with the public.

ONE OF THEM.

TAXES IN BILLIMORA.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I have read with much interest in your widely-circulated newspaper the letters regarding the taxes levied in Billimora. Will you kindly grant me a corner in your next issue to express my humble views? The letter of "Billimora" is, of course, rather exaggerated or misleading, but that is no reason why the Desai of Gandevi, who has now nothing to do with the poor and law-abiding subjects of Billimora, should continue to squeeze even a "trifle," as "P. H. G." says, from the poor *lungotivalas* of Billimora. Again, the former correspondent argues that "when railways were not introduced into India, and when the commerce of Guzerat was in a very flourishing state, the fisherman did not feel the burden of such taxes." Does he mean to say by this that, after the introduction of railways in India, the trade in Guzerat has diminished? If so, he is totally wrong—not only there, but even Billimora itself, has risen to a flourishing condition compared with the past few years. But, indeed, by the introduction of the railway into Guzerat the plying of native crafts from Billimora to some of the coasting ports has fallen off, and to it the fisherman also. Therefore his support now only remains on fishing; and, if I mistake not, the Game Preservation Act will, perhaps, affect that profession also, because this town is situated on the extreme south of the Gaekwar's dominions, on the river Ambica, which runs through the British pargana of Bulsar, and sometimes the fishermen had to steer there in search of fishing.

These taxes were levied and continued at a time when anarchy reigned, and men were trampled to death under the feet of elephants, without justice or mercy, in Baroda. When might was the only right the wealthy class of people tried and succeeded in exempting themselves from the burden of the tax. Now, sir, my humble opinion is that, had the taxes been levied equally on all classes of people, rich as well as poor; had they been levied by the proper authority and in the proper way; had there been any establishment or department to provide with funds, no one would have grumbled. But until recently there was nothing for the poor in Billimora on which the *Srimant Sarkar* or the Desai could spent a pie. There was no charitable or aided school for Hindus until recently; there is no charitable dispensary or hospital conducted by the Gaekar; the roads and the surroundings of the town are dirty and filthy; and, in the poet's words,

. . . a town of monks and bones,
And pavements fanged with murderous stones;
And rags and hags and hideous wenches,
I counted two and seventy stenches.

In short, the people are living by themselves. There are, however, about half-a-dozen public peace-preservers, who can do very well for what I don't know. Then, why should these poor *lungotivalas* continue to bear this burden that a stranger and out-of-the-way Desai has been imposing on them since ages past? Will not Baja Sir Tanjorkar Madhow Row take this matter up, look through it, and do something to relieve the poor people from a daily leath-some burden, for which once they had to run away to the adjoining British village, and establish themselves there, leaving their homes and property to the tender mercy of destruction?

MATRICULATION EXAMINATION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—One may well ask what principles guide examiners in setting questions. At the previous examination, held this week, the paper in logic consisted mostly of what may be called problems. This paper was set to young men who had hardly ten months' college education. Compare it with those set in previous years to those who had one year and a half or two years of college education. Compare it with those set by the same examiner in April last. In all these last bookwork took up at least three-fourths of the marks. It is doubtful whether the paper in question would not be above those who had one year and a half of college training. If logic were the only subject, it would be a different thing to put any number of problems. But examiners are expected to know that in the ten or eleven months the candidates had before them they had to get up other subjects as new to them as logic. If it is thought desirable to raise the standard of examination, why not raise it so for all?

Deceased was a cart-driver, who, on the day previous, while driving his bullock-cart at the Elphinstone Bunder, was accidentally jolted off his cart, and fell to the ground, when one of the wheels passed over his body across the stomach. He sustained such internal injuries that he died shortly after the occurrence. A verdict of accidental death was recorded accordingly.

FATAL ACCIDENT.—A coroner's inquest was held on Saturday last at the J. J. Hospital on view of the body of Suckoo, woman. Deceased died from the injuries she sustained by being knocked down and kicked by Mr. Jewanjee Dadabhoy's horse, that bolted away from the Breach Candy Road the other day. Deceased, it appears, declined at first to be conveyed to the hospital when she was injured. The verdict was that "the death of the deceased was caused by injuries received by her having been knocked down and kicked on the forehead by a runaway horse."

CURIOUS SNAKE STORY.—The following extraordinary story, which is going the round of the native press of this presidency, shows to what extent gullibility can go. Perhaps Madame Blavatsky will be kind enough to explain to what branch of occult science the phenomena is to be referred. In the Salsett province of Goa, while a girl aged about eight or nine years was passing along a certain road, a voice proceeded from a tree, "May

V. PROTECTED BY THE ROYAL LETTERS PATENT, DATED OCTOBER 11, 1869. R.

DR. BRIGHT'S PHOSPHODYNE,

The New Curative Agent and only Reliable Remedy for Indigestion, Nervous and Liver Complaints Fevers, and all Functional Derangements.

DR. BRIGHT'S PHOSPHODYNE is acknowledged by the first medical men in Europe as the most efficacious medicine hitherto discovered for Weak and Shattered Constitutions, Nervous Debility, Aversion or Incapacity for Study, Trembling of the Limbs, Indigestion, Female Complaints, Flatulence, Liver Complaints, Shortness of Breath, Drowsiness, Pains in the Head, Pimples, Impoverished Blood, and all diseases caused by a long residence in tropical climates, for which iron, mercury, iodide of potass, &c., are given in various forms, often to the destruction of the patient's health.

CAUTION TO THE PUBLIC IN INDIA.

Beware of a WORTHLESS IMITATION, advertised in a few Indian Newspapers. Dr. Bright's (the only genuine) Phosphodyne is the safest and most reliable preparation of Phosphorus, and the only medicine of that name recommended by the Medical Faculty.
Fraudulent Imitations are in no way recognized by the Medical Profession, and are either Useless or Positively Dangerous.

DR. BRIGHT'S PHOSPHODYNE.—Until the introduction of DR. BRIGHT'S PHOSPHODYNE in 1869, Phosphorus was but seldom prescribed as a Medicine, owing to the difficulty in so preparing it that its action could be kept under perfect control. It had been used in Almond and Olive Oils, in Sulphuric Ether, in rectified Alcohol, in Chloroform, and in several advertised medicines; but in all the hitherto known methods of its preparation, certain irregular results have been experienced. But in the form of DR. BRIGHT'S PHOSPHODYNE, its invaluable action on the human system is realized without any of those drawbacks which other modes of preparation invariably produce.

DR. BRIGHT'S PHOSPHODYNE

Is old in Cases only by all Chemists and Storekeepers throughout the Globe.

DR. BRIGHT'S PHOSPHODYNE.—Full Directions for use in the English, French, German Italian, Dutch, Spanish, Portuguese, Russian, Danish, Turkish, Persian, Hindostani, Madrassee, Bengalee, Chinese and Japanese Languages accompany each case.
DR. BRIGHT'S PHOSPHODYNE.—Purchasers of this medicine should be careful to observe that the words "Dr. Bright's Phosphodyne" are blown in the bottle, and that the directions for use are printed in all the languages as above, without which none can possibly be genuine Phosphodyne. Every Case bears the Trade Mark and Signature of Patentee.

☞ ASK FOR DR. BRIGHT'S PHOSPHODYNE,

And do not be pursuaded to take any Useless and Possibly Dangerous Substitute.

HEALTH, STRENGTH, AND ENERGY.

DR. LALOR'S
PHOSPHODYNE.

TRADE MARK—PHOSPHODYNE.

DISCOVERED AND SO NAMED, A. D. 1862, BY R. D. LALOR, M. D.

DR. LALOR'S PHOSPHODYNE is a Pure Solution of PHOSPHORUS, in combination with the Vegetable Alkoloids Quinia, Cyprinodin, Xanthoxylin, &c., prepared by a Chemical process known only to DR. LALOR, producing a remarkably Elegant and Pleasant Tasted Preparation, equal to the best Wines, perfectly free from Strychnia and all other Dangerously Active Drugs; superseding the numerous objectionable forms of Phosphorus Pills, Pilules, Elixirs, Syrups, Nauseous Mixtures with which the Market has been flooded since the Phosphoric Treatment of Disease was first made public by Dr. R. D. Lalor, in 1862.
To Residents in India, China, and the Colonies, it will prove invaluable as a Reliable Liver Tonic and a Vitalizing Restorative.
This Phosphatic combination, the Wonder of Modern Chemistry, is pronounced by the most eminent Members of the Medical profession to be unequalled for its power in replenishing and elaborating the Vitality of the body; by its supplying all the essential constituents of the BLOOD, BRAIN, and NERVE SUBSTANCE; and for developing all the Powers and Functions of the System to the highest degree; by its being agreeable to the palate, and innocent in its action. While retaining its wonderful properties, it acts as a Specific, surpassing all the known THERAPEUTIC AGENTS of the present age, for the SPEEDY and PERMANENT CURE of all derangements of the Nervous and Blood Systems, Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Indigestion and Liver Complaints, Flatulance, Nervous Fancies, Hypochondria, Nervous Debility in all its Stages, Loss of Memory, Softening of the Brain, Paralysis, Affections of the Kidneys, Bladder, Urinary Deposits, &c., Acne, Spasms, Asthma, Consumption, Chronic Bronchitis, Scrofula and Skin Diseases, Wasting or Withering of the Muscles, Impaired Nutrition, Impoverished Blood, Premature Decline, and all morbid Conditions of the system, dependent upon the deficiency of THE VITAL FORCES arising from whatever cause

DR. LALOR'S PHOSPHODYNE

Gives back to the Human structure in a suitable form the Phosphoric or Lively Animating element of life which has been wasted, and exerts an important influence directly on the Brain, Spinal Marrow, and Nervous System, of a Nutritive Tonnic, and Invigorating character; thereby checking all wasting of the Vital Fluid, and the more Exhausting Processes of Life, maintaining that Buoyant Energy of the Brain and Muscular System which renders the Mind Cheerful, Happy, Brilliant, and Energetic, entirely overcoming that Dull, Inactive and Sluggish Disposition which many Persons experience in all their action.

CAUTION.—The Name DR. LALOR'S PHOSPHODYNE is blown in the Glass of each Bottle, and the Genuine Phosphodyne is manufactured at and is obtainable only direct from Dr. Lalor's Laboratory, London, England. WHOLESALE and EXPORT HOUSES are Specially requested to NOTE this. Sold in Bottles at 1s. 6d. and 11s. by all Export Wholesale and Retail Medicine Vendors throughout the World.
IMPORTANT NOTICE.—Every Bottle bears the British Government Stamp, with the words DR. LALOR'S PHOSPHODYNE, London, England, engraved thereon by Order of Her Majesty's Honourable Commissioners. IF NOT, IT IS A FORGERY, and you have been imposed on by a worthless imitation.
PUBLIC NOTICE and WARNING to Medicine Vendors and the Public in Great Britain, India, China, and the Colonies.—DR. LALOR'S PHOSPHODYNE is the only Medicine bearing the name PHOSPHODYNE that has the Sanction of the British Government, and for which Her Majesty's Registrar of "Trade Marks" has granted Certificates to DR. LALOR ONLY. Therefore DR. LALOR'S is the only Legitimate and Genuine PHOSPHODYNE. BEWARE of Worthless Counterfeits that may emanate from Australia or America.
